

Connectors

Fixing element for cross connections of FXT Heavy Rail Profiles

Material specifications	
Material	S235JR or equivalent steel
Coatings	Hot-Dip Galvanized

Applications

- Cross connection of FXT Heavy Rail Profiles
- Connecting element for planar grid structures

Features & Benefits

- Easy to install with FXT Self threading bolts
- Ensures rotation-free FXT Heavy Rail structural connections
- Quick and efficient connections of heavy support structures
- High load bearing capacity owing to special material properties and design
- Hot-dip galvanized in accordance to EN 1461 assures higher corrosion protection and provides flexibility of using in Indoors as well as outdoors
